

Marine Articulated Mount MAM2

The MAM2 is specifically designed to provide a method of deck mounting a number of RFI mobile antennas which have a 1/2" TPI threaded. This allows antennas to be mounted on caravans, motor homes and marine vessels.

Features:

- Allows antennas to be laid down when not in use
- Antennas can be adjusted to accommodate non-level mounting surfaces
- Suitable for marine, caravans, motor homes, hire equipment and freight vehicles
- Compatible with a wide range of RFI antennas including CD2100/2200 Series, CD5000 Series and CD900 Series

Specifications
